Changing the World from the Inside Out Dec 25 2019 WINNER OF THE 2016 JEWISH BOOK COUNCIL AWARD FOR CONTEMPORARY JEWISH LIFE AND PRACTICE
An inspiring and accessible guide, drawn from Jewish wisdom, for building the inner qualities necessary to work effectively for social justice. The world needs changing—and you're just the person to do it! It's a matter of cultivating the inner resources you already have. If you are serious about working for social justice and change, this book will help you bring your most compassionate, wise, and courageous self to the job. Bringing positive social change to any system takes deep self-awareness, caring, determination, and long-term commitment. But polarization, the slow pace of change, and internal conflicts among activists and organizations often leads to burnout and discouragement among the very people needed to make a difference. *Changing the World from the Inside Out* distills centuries of Jewish wisdom about cultivating and refining the inner life into an accessible program for building the qualities necessary to accomplish sustainable change. Through explorations of deep motivation, inner-drive, and traits like trust and anger, this book engages the reader in a journey of self-development and transformation, demonstrating that sustainable activism is indeed a spiritual practice. Jaffe offers accessible and meaningful guidance for this journey—with exercises, contemplations, and discussion points that can be used individually or in a group.

Outdoor Kids in an Inside World Oct 27 2022 NEW YORK TIMES BESTSELLER • “An imperative call to action” (Nick Offerman) to get children off their screens and into nature, with tips for bonding activities that teach the importance of outside time and build tough, curious, competent kids—from the New York Times bestselling author and host of the TV series and podcast MeatEater “A revelation for families struggling to get kids to GO OUTSIDE, or to just stop using the darn smartphone.”—Michaeleen Doucleff, PhD, New York Times bestselling author of Hunt, Gather, Parent In the era of screens and devices, the average American spends 90 percent of their time indoors, and children are no exception. Not only does this phenomenon have consequences for kids’ physical and mental health, it jeopardizes their ability to understand and engage with anything beyond the built environment. Thankfully, with the right mind-set, families can find beauty, meaning, and connection in a life lived outdoors. Here, outdoors expert Steven Rinella shares the parenting wisdom he has garnered as a father whose family has lived amid the biggest cities and wildest corners of America. Throughout, he offers practical advice for getting kids radically engaged with nature in a muddy, thrilling, hands-on way, with the ultimate goal of helping them see their own place within the natural ecosystem. No matter their location—rural, suburban, or urban—caregivers and kids will bond over activities such as: • Camping to conquer fears, build tolerance for dirt and discomfort, and savor the timeless pleasure of swapping stories around a campfire. • Growing a vegetable garden to develop a capacity to nurture and an appreciation for hard work. • Fishing local lakes and rivers to learn the value of patience while grappling with the possibility of failure. • Hunting for sustainably managed wild game to face the realities of life, death, and what it really takes to obtain our food. Living an outdoor lifestyle fosters in kids an insatiable curiosity about the world around them, confidence and self-sufficiency, and, most important, a lifelong sense of stewardship of the natural world. This book helps families connect with nature—and one

another—as a joyful part of everyday life.

The Illegal Wildlife Trade Aug 13 2021 In this book the author examines the illegal wildlife trade from multiple perspectives: the historical context, the impact on the environment, the scope of the problem internationally, the sociocultural demand for illegal products, the legal efforts to combat it, and several case studies from inside the trade. The illegal wildlife trade has become a global criminal enterprise, following in the footsteps of drugs and weapons. Beyond the environmental impact, financial profits from the illegal wildlife trade often fund organized crime groups and violent gangs that threaten public safety and security in myriad ways. This innovative volume covers several key questions surrounding the wildlife trade: why is there a demand for illegal wildlife products, which actors are involved in the trade, how is the business organized, and what are the harmful consequences. The author performed ethnographic fieldwork in three key markets: Russia, Morocco, and China, and has constructed a detailed picture of how the wildlife trade operates in these areas. Conversations with informants directly involved in the illegal business ensure unique insights into this lively black market. In the course of his journey the author follows the route of the illegal wildlife trade from poor poaching areas to rich business districts where corrupt officials, legally registered companies, wildlife farms and sophisticated criminal organizations all have a share. A fascinating look inside the world of poachers, smugglers and traders.

----- Now, for the first time ever, discover the story of YouTube: how it started, how it works, and how it came to control our culture. It has entertained us with cat videos, flash mobs, gaming streams and Charlie Bit My Finger. It has educated us with makeup tutorials, DIYs and delicious recipes. It has changed us with advertising, extremism and political propaganda. Since its foundation in 2005, YouTube has existed on a pendulum. Its emergence established a valuable space for unique and important voices to share themselves and their views, and made global stars out of everyday people such as PewDiePie, Shane Dawson and Ryan Higa. It invented the attention economy we all live in today, forever changing how people are entertained, informed and paid online. At the same time, countless extremists have found a home on YouTube, using it to spread misinformation and propaganda - sometimes with real-world life-and-death consequences. The site is massively profitable for its parent company, Google (Alphabet), which has aggressively grown it into a ruthless advertising conglomerate with little regard for its impact beyond the bottom line. In *Like Comment Subscribe*, Bloomberg tech journalist Mark Bergen delivers the definitive, page-turning account of YouTube. Exploring the stories of the people behind the platform, he tells the story of a technical marvel that upended traditional media, created stars of everyday people, and ultimately changed the world through untamed freedom of speech.

Bachelor Nation Dec 17 2021 *A New York Times Bestseller* The first definitive, unauthorized, behind-the-scenes cultural history of the Bachelor franchise, America's favorite guilty pleasure. For sixteen years and thirty-six seasons, the Bachelor franchise has been a mainstay in American TV viewers' lives. Since it premiered in 2002, the show's popularity and relevance have only grown—more than eight million viewers tuned in to see the conclusion of the most recent season of *The Bachelor*. Los Angeles Times journalist

Amy Kaufman is a proud member of Bachelor Nation and has a long history with the franchise—ABC even banned her from attending show events after her coverage of the program got a little too real for its liking. She has interviewed dozens of producers, contestants, and celebrity fans to give readers never-before-told details of the show's inner workings: what it's like to be trapped in the mansion "bubble"; dark, juicy tales of producer manipulation; and revelations about the alcohol-fueled debauchery that occurs long before the Fantasy Suite. Kaufman also explores what our fascination means, culturally: what the show says about the way we view so-called ideal suitors; our subconscious yearning for fairy-tale romance; and how this enduring television show has shaped society's feelings about love, marriage, and feminism by appealing to a marriage plot that's as old as the best of Jane Austen.

The \$325 billion-a-year pharmaceutical business is America's most challenging and one of its most profitable. It is tougher in just about every way than any other enterprise: from the towering biological risks inherent in its mission to treat disease; to the thirty-to-one failure rate in bringing out a successful medicine after a candidate clears all the hurdles to get to human testing; to the billion-dollar-plus cost of ramping up a successful product; to operating in the world's most highly regulated industry with the possible exception of nuclear power. *The Antidote* tells the story of Vertex, a maverick drug company led by the charismatic Joshua Boger and a small group of entrepreneurial young scientists who broke off from Merck when it was the world's best drug maker, indeed the most admired business in America because they thought they could make drugs better. Building upon his widely praised *The Billion-Dollar Molecule*, Barry Werth captures the full scope of Vertex's twenty-five-year drive to liver breakthrough medicines and transform the drug industry. *The Antidote* draws upon unprecedented inside reporting spanning more than two decades to provide a groundbreaking close-up of Vertex's inner workings and the ferocious but indispensable

Turn This World Inside Out Jan 06 2021 "Violence is nurturance turned backwards," writes Nora Samaran. In *Turn This World Inside Out*, she presents Nurturance Culture as the opposite of rape culture and suggests how alternative models of care and accountability—different from "call-outs," which are often rooted in the politics of shame and guilt—can move toward inverting cultures of dominance and systems of oppression. When communities are able to recognize and speak up about systemic violence, center the needs of those harmed, and hold a circle of belonging that humanizes everyone, they create a revolutionary foundation of nurturance that can begin to repair the harms inflicted by patriarchy, white supremacy, and capitalism. Emerging out of insights in Gender Studies, Race Theory, and Psychology, and influenced by contemporary social movements, *Turn This World Inside Out* speaks to some of the most pressing issues of our time.

Inside the World of Mirrors Jun 23 2022 This book is about the unseen Shadow War that occurred between 1968 and 1976. It was written to honor those who served our country and didn't come back. They may have been ignored or denied by the Powers That Be, but they will live in my heart and my nightmares as long as I live. The profits from the sale of this book will go to help homeless veterans. Reading this book will open a new world for you --

The world of Special Intelligence Operations. From Viet Nam to Cambodia to Laos and North Viet Nam the action will show you why so many veterans from the Viet Nam War have PTSD. The potential for recurring nightmares will be apparent. Next you will take a trip from Libya to Spain to Italy and Romania. You will find out that the war against terror did not start in 2001. The following sample will demonstrate what Inside the World of Mirrors is all about. In 1974, I met and was briefed by a Mr. Martin, a high level individual from the American Embassy in Rome, Italy, on an operation to insure that a particular individual would not continue funding communist political activities in Italy. He was a bag man for the KGB. It was less than two months until a very important election was to take place. He was spreading money around to help the communist political candidates get elected. I was simply told Make Him Stop! They gave me carte blanche to get it done. Anytime in the next seven days would be just fine. This was only one of the 83 missions ran by a Special Intelligence Operative code named the Iceman

The World Turned Inside Out Sep 02 2020 A history and theory of settler colonialism and social control Many would rather change worlds than change the world. The settlement of communities in 'empty lands' somewhere else has often been proposed as a solution to growing contradictions. While the lands were never empty, sometimes these communities failed miserably, and sometimes they prospered and grew until they became entire countries. Building on a growing body of transnational and interdisciplinary research on the political imaginaries of settler colonialism as a specific mode of domination, this book uncovers and critiques an autonomous, influential, and coherent political tradition - a tradition still relevant today. It follows the ideas and the projects (and the failures) of those who left or planned to leave growing and chaotic cities and challenging and confusing new economic circumstances, those who wanted to protect endangered nationalities, and those who intended to pre-empt forthcoming revolutions of all sorts, including civil and social wars. They displaced, and moved to other islands and continents, beyond the settled regions, to rural districts and to secluded suburbs, to communes and intentional communities, and to cyberspace. This book outlines the global history of a resilient political idea: to seek change somewhere else as an alternative to embracing (or resisting) transformation where one is.

Inside the World's Major East Asian Collections Aug 21 2019 Inside the World's Major East Asian Collections examines the rise of the "LAM," an acronym that stands for libraries, archives and museums. In doing so, this book profiles leading experts—librarians, archivists and museum curators—who specialise in East Asian collections from across the world. In examining the dynamically shifting role of the cultural institution in the context of managing information and collections, this book provides important themes offered by these cultural experts in understanding the necessary professional skills, knowledge and personalities that are required for working in such environments of varying size, scope and composition in LAMs. As galleries, LAMs manage preservation and access of history and culture, and their missions and goals as cultural institutions continue to converge. As collecting institutions, LAMs share the common mandate to preserve and make accessible primary resources valuable for researchers and professionals, as well as the public. LAMs are mostly publicly funded, publicly accountable institutions collecting cultural heritage materials. Another aim of this book is to enhance the visibility and recognise the efforts of

the LAM professionals as cultural institution leaders, since much of their great contributions in the respective fields to preserving our cultural and documentary heritages have gone unnoticed outside their parent institutions. Examines the roles and goals of cultural institutions Brings collections to life through interviews with LAM experts Presents LAMs with a focus on East Asia Serves as a platform for LAM professionals to share and exchange experiences and insights

American Radical Jun 11 2021 The explosive New York Times bestselling memoir of a Muslim American FBI agent fighting terror from the inside. A longtime undercover agent, Tamer Elnoury joined an elite counterterrorism unit after September 11, 2001. Its express purpose was to gain the trust of terrorists whose goals were to take out as many Americans in as public and devastating a way as possible. It was a furious race against the clock for Elnoury and his unit to stop them before they could implement their plans. Yet the techniques were as old as time: listen, record, and prove terrorist intent. It's no secret that federal agencies have waged a broad, global war against terror, through and after the war in Afghanistan. But for the first time, in this memoir, an active Muslim American federal agent reveals his experience infiltrating and bringing down a terror cell in North America. Due to his ongoing work for the FBI, Elnoury writes under a pseudonym. An Arabic-speaking Muslim American, a patriot, a hero: To many Americans, it will be a revelation that he and his team even existed, let alone the vital and dangerous work they have done keeping all Americans safe.

Semi Queer Oct 03 2020 Long-haul trucking is linked to almost every industry in America, yet somehow the working-class drivers behind big rigs remain largely hidden from public view. Gritty, inspiring, and often devastating oral histories of gay, transsexual, and minority truck drivers allow award-winning author Anne Balay to shed new light on the harsh realities of truckers' lives behind the wheel. A licensed commercial truck driver herself, Balay discovers that, for people routinely subjected to prejudice, hatred, and violence in their hometowns and in the job market, trucking can provide an opportunity for safety, welcome isolation, and a chance to be themselves--even as the low-wage work is fraught with tightening regulations, constant surveillance, danger, and exploitation. The narratives of minority and queer truckers underscore the working-class struggle to earn a living while preserving one's safety, dignity, and selfhood. Through the voices of drivers from marginalized communities who spend eleven- to fourteen-hour days hauling America's commodities in treacherous weather and across mountain passes, *Semi Queer* reveals the stark differences between the trucking industry's crushing labor practices and the perseverance of its most at-risk workers.

The Shadow World Mar 08 2021 Soon to be a Major PBS Documentary Event The Shadow World is the harrowing behind-the-scenes tale of the global arms trade, revealing the deadly collusion that all too often exists among senior politicians, weapons manufacturers, felonious arms dealers, and the military—a situation that compromises our security and

undermines our democracy. Pulling back the curtain on this secretive world, Andrew Feinstein reveals the corruption and the cover-ups behind a range of weapons deals, from the largest in history—between the British and Saudi governments—to the guns-for-diamonds deals in Africa and the imminent \$60 billion U.S. weapons contract with Saudi Arabia. He exposes in forensic detail both the formal government-to-government trade in arms and the shadow world of illicit weapons dealing, and lays bare the shockingly frequent links between the two. Drawing on his experience as a member of the African National Congress who resigned when the ANC refused to launch a corruption investigation into a major South African arms deal, Feinstein illuminates the impact this network has not only on conflicts around the world but also on the democratic institutions of the United States and the United Kingdom. Based on pathbreaking reporting and unprecedented access to top-secret information and major players in this clandestine realm, *The Shadow World* places us in the midst of the arms trade's dramatic wheeling and dealing—from corporate boardrooms to seedy out-of-the-way hotels—and reveals the profound danger and enormous financial cost this network represents to all of us.
