Blueprint for Black Power Jan 23 2020 Afrikan life into the coming millennia is imperiled by White and Asian power. True power must nest in the ownership of the real estate wherever Afrikan people dwell. Economic destiny determines biological destiny. 'Blueprint for Black Power' details a master plan for the power revolution necessary for Black survival in the 21st century. White treatment of Afrikan Americans, despite a myriad of theories explaining White behavior, ultimately rests on the fact that they can. They possess the power to do so. Such a power differential must be neutralized if Blacks are to prosper in the 21st century ... Aptly titled, 'Blueprint for Black Power' stops not at critique but prescribes radical, practical theories, frameworks and approaches for true power. It gives a biting look into Black potentiality. CONSER CATALOGING MANUAL 2000 UPDATE NO. 12 (SPRING), Sep 11 2021

The Moto Guzzi Story - 3rd Edition Dec 02 2020 The story of Moto Guzzi is a story of survival. As one of Italy's oldest, and most legendary marques, Moto Guzzi had seen the height of success during the 1930s, and then the 1950s when they dominated 250 and 350cc Grand Prix racing. Their withdrawal from racing coincided with a period of stagnation until the company was sold to De Tomaso in 1973. During the 1970s the V7 Sport and Le Mans were at the forefront of the new superbike era, and later, with Dr John Wittner's help, embraced contemporary technology with the 1000cc Daytona. If one aspect characterizes Moto Guzzi it is continuity. The great 500cc Falcone single ran from 1950 until 1976, and the V7, originally seeing the light of day in 1967, continued well into the 2010s. This continuity breeds loyalty, and Guzzi owners are a fiercely proud breed. Guzzis are not like other motorcycles, even Italian ones, and to qualify as a Guzzi owner requires a dedication and individuality that will be rewarded in a long term relationship.

Upon the Gardens of Epicurus Sep 18 2019 Sir William Temple, diplomat, statesman, and writer, retired to his garden in the 1680s and wrote what has become one of the key texts, not only of gardening, but also of the English aesthetic. It was he who introduced the idea of the charm of irregularity, and who gave it the allegedly Chinese name sharawadgi. The English style of landscape gardening can be traced in a direct line to this essay, which has not been in print for over 95 years.
